15a. Warranty Provision: Manufacturer reserves the right to change design or construction of its products without prior notice or obligation. Any parts or products which fail in service more than 30 days after the date of installation, will be repaired and returned in accordance with the terms of the product warranty. Commercial Warranty Applies (see page 63) Midwest will credit any freight costs due to the return of any product returned under warranty.

15b. Return/Exchange Goods Policy: Unopened, current product (listed in this contract) may be returned for credit without a restocking charge. Midwest will credit the freight costs of such transactions if they are necessitated due to any Midwest error in the original shipment. Defective Merchandise return: Any parts or products that fail to operate in accordance with factory specifications at the time of installation will be exchanged by Midwest for identical merchandise. Any parts or products which fail in service more than 30 days after date of installation will be repaired and returned in accordance with the terms of the product warranty. If a product fails after 30 days it should be returned to Midwest for repair. Any Merchandise that is returned to Midwest for credit or exchange must be accompanied by a returned goods authorization signed and approved by your Midwest Sales Representative or Customer Service Representative. Proof of purchase is required on all returned goods, and should be forwarded to the Returned Goods Department. Midwest reserves the right to review all products before a return is processed. All parts and products can be returned for credit or exchange except:

1) Obsolete parts and products. This includes parts and products not listed in a current price list and those which are listed but are designated obsolete.
2) Parts and Products purchased more than one year prior to the current date.
3) Any Merchandise showing customer abuse, design modification, damages during installation, or product which was custom built to customer specifications.

Non-defective returned merchandise will be subjected to a 10% (minimum $10) handling and restocking charge. Merchandise will be credited at the original invoice price less the restocking charge. Proof of purchase is required on the return of all goods. Shipment of all returned merchandise must be prepaid.

16. Terms and Conditions of Government Commercial Credit Card Acceptance: User must give their name, phone number, and billing address upon placement of the order.

17. Government Educational Institutions: Educational pricing will be offered to government facilities who certify they are an educational institution and that the product will be used only for educational purposes.

18. Year 2000 (Y2K) Compliant: YES

19. DUNS Number: 183187152

20. Midwest Dental is registered in the CCR database.

Midwest High Speed Handpieces

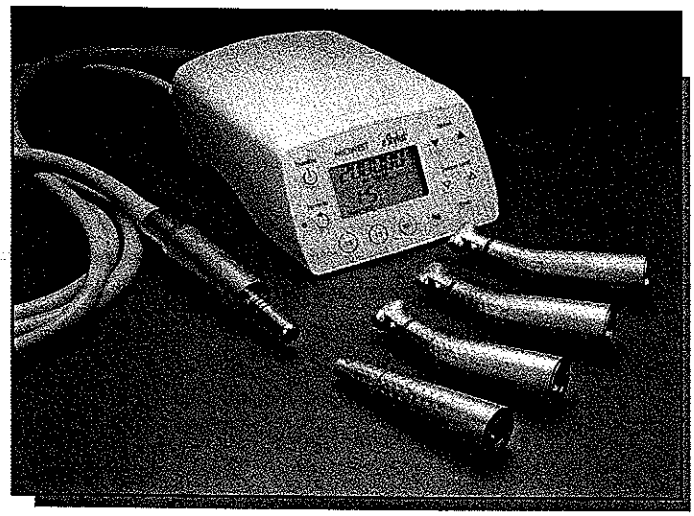
Midwest eStylus™



Key Features	Benefits
Powerful, Smooth, Consistent Torque	Fast and Effective Highspeed and Lowspeed procedures
Quiet, Reliable, Durable Electric Motor	Improved patient comfort and less vibration
Wireless Radio-Frequency Remote Control and Display Unit	All information and control at dentist's fingertips
3 Contra-Angle and 1 Straight attachment available	Accommodates all procedures with one product - Highspeed, Lowspeed, Endo, Chairside, Prophy etc...
Pre-set buttons for Highspeed, Lowspeed and Endo procedures	Easy to use; easy to switch among common procedures
Variable foot control with your existing pedal when used for Highspeed and Lowspeed	Familiar operation, allowing dentist to feather speed with foot pedal
Revolutionary ENDO Mode with Torque-Limiting, Auto-Reverse and On-Off Foot Control	Reduces chance of file separation during rotary endo procedures; allows dentist to follow procedures as recommended by file manufacturers
True Bur Speed displayed	Better repeatability in procedures
15 Speed / Procedure Memory locations	Allows dentist to store speed settings and attachment settings for a wide variety of procedures

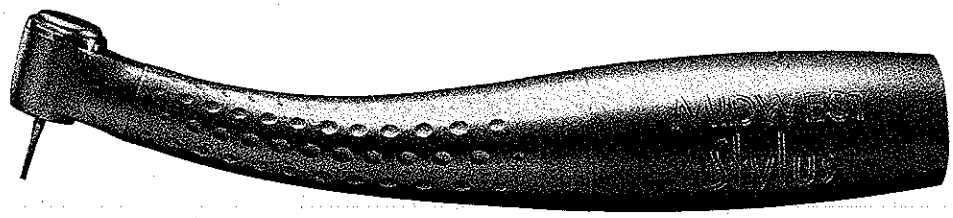
Midwest Stylus™ Handpiece and Couplers



Special Features	Benefits
Power- The Midwest Stylus delivers the power of a "big head" in a mid-sized head.	Experience the power of a very large head in a package that provides the intra-oral access of a small head. Strong, smooth, controlled cutting without compromising intra-oral access.
Noise- This handpiece has significantly reduced the noise levels making it the quietest handpiece in the market.	Reduced patient, DDS, and staff stress. Provides a more comfortable environment.
Durability / Reliability- A myriad of design details combine to deliver the most durable handpiece in the market. To prove it we are offering an 18-month warranty on the standard maintenance model.	Less downtime, fewer repairs, lower repair costs and more confidence in the handpiece.
Four-port water spray- The Stylus delivers an aerosolized water spray through four water ports. This provides spray on all sides of the bur.	Greater bur cooling, and improved clearing of the operating field.
Fusion Optics- The fiber optics are of the latest fused bundle technology.	This will produce greater light output and longer fiber optic life through sterilization. We back this up with a 5-year warranty on the fiber optics.
Chucking system- Longer chuck life plus improved concentricity.	Longer life, less downtime, fewer repairs, lower overall repair costs.
EasyCare™ option (Two Stylus models available)- Factory-lubricated ball bearings for easier maintenance.	Convenience; frees staff from the routine maintenance of handpieces. No oil on the tooth prep means better composite retention. EasyCare™ model offered with a 12-month warranty.
Ergonomic Design- Wider backend to rest in the cradle of the hand and keep the hand in a more relaxed, less stressed position. The Stylus includes a 360 degree swivel with quick-disconnect.	Reduced hand and finger fatigue. Easy on/off for sterilization plus reduced wrist and arm fatigue.

NO OTHER HANDPIECE IN THE WORLD CAN OFFER THIS COLLECTION OF FEATURES AND BENEFITS

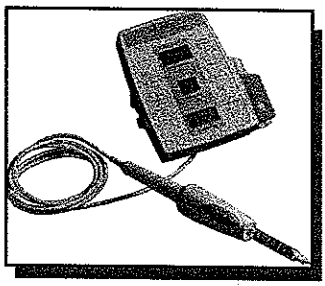
Midwest Comfort Control™ Syringe (CCS™)



- Choose controlled and consistent anesthetic flow
- Minimize patient discomfort
- Reduce stress for dental professional and patient
- Make a difficult injection easier

The Comfort Control™ Syringe (CCS™) is an electronic pre-programmed anesthetic delivery device designed to give you the greatest degree of control. Using a two-stage delivery rate, the injection begins at an extremely slow rate to counter the initial pain usually associated with an injection. After 10 seconds, the flow then increases to the pre-programmed technique-specific rate you have selected.

c-03 850155

Comfort Control™ Syringe (CCS™) — $535.64

Items included:

- CCS Control Box and Handpiece
- Power Supply and Cord
- Disposable Anesthetic Cartridge Sheath (50)
- Disposable Syringe Sleeves (50)
- Disposable Dental Needles
- Operation and Clinical Video
- Instructions for Use Manual
- Quick Reference Guide

TECHNICAL SPECIFICATIONS AND DIMENSIONS

External power supply	100-240 VAC (Universal) 0.4-0.2A, 50-60 Hz
Voltage/current (control unit input)	12VDC, 1 amp
Dimensions, control unit	3"h x 5"w x 6"d
Dimensions, handpiece	1.5" max diameter x 5.5" long
Weight, control unit	10oz.
Weight, handpiece (without cartridge)	3oz.
Handpiece connecting cable length	6ft.
UL2601-1 classification	Class I, Type B Applied Part, IPXO

Reorder Information

c-03 850050 Anesthetic Cartridge Sheaths, Box of 50, Imperial — $14.42

c-03 850810 Aspiration Harpoon Replacement Kit — $25.33

Note: The aspiration harpoon should be replaced whenever it does not easily penetrate the rubber plunger of anesthetic cartridges. DENTSPLY Professional recommends you replace your harpoon at least every 500 uses or 6 months, whichever comes sooner. Order replacement kit (REF 850810). This kit includes a replacement harpoon and two special wrenches required for replacement of harpoon. Do not use any other aspiration retraction device. No other routine maintenance is required. Do not attempt to open or service the unit. There are no user serviceable parts inside.
