WEB CORNER

The AFML Web Corner is designed to inform our customers of information available on the AFMLO home page. Check out our home page and contact us with any questions and/or suggestions.

“How Can I Quickly Find The Status Of Requested Excess?”

Ann Smith has a recurring problem obtaining shipment status on excess materiel he has requested. His supervisor advises him that the information he is looking for is available on the AFMLO web site. Once logged into the web site, select the following links: Procurement, Medical Excess Program, and Ship Status Query (Last 100 Days). Then complete the information requested on the query form and press “Search.” Any shipments made to your account within the last 100 days will be listed, in ship date sequence. Ann Smith is amazed that this much information is available with just a few keystrokes. Take time to try this and other management tools available to you on the AFMLO web site. Forward your questions to Maj Troy Molnar, DSN 343-4083. (AFMLO/FOM-P, Maj Troy Molnar, DSN 343-4083, commercial 301-619-4083, troy.molnar@ft-detrick.af.mil)

MEDICAL MATERIEL

Allowance Standard (AS) Updates

Attachment 4 contains AS updates. Changes are the result of cataloging actions to replace Acquisition Advice Code “V” and “Y” NSNs and

changes generated by the OPR. These changes are provided to update your WRM records. Remember to establish prime-sub relationships when applicable. Use the information in the "Add" and "Replaced" portion of the change document to determine the need for prime-sub relationships. If an NSN is replaced and there are on-hand balances, a prime-sub relationship should be established. Adjust WRM levels on NSNs listed as "Add" or "Delete." If you have any questions or concerns, contact the appropriate AS manager. A list of the AS managers and the current version of each AS is available on the AFMLO web site at <https://afml.ft-detrick.af.mil>. Only minor changes are contained in this attachment and no SORTS reporting option is required. Any SORTS reporting option required as a result of a major AS change will be provided in the Transition Plan coordinated between the Pilot Unit, MEFPAK, and HQ USAF/SGXR. Additionally, you may sign up to receive electronic notification of changes to AS maintained at your account. To do so, select the Medical Readiness and Subscribe to List Server for AS Changes options on the AFMLO web site at <https://afml.ft-detrick.af.mil>. (AFMLO/FOC-D, Ms. Anne Newcomer, DSN 343-4118, commercial 301-619-4118, anne.newcomer@ft-detrick.af.mil)

Pharmaceutical Credit Returns

With the exception of labor costs, pharmaceutical and supplies are usually the largest expense in operating budgets for medical treatment facilities. Pharmaceutical credit returns through the manufacturer can be one way for a facility to recoup some of these costs. However, medical materiel and pharmacy personnel should be fully aware of the rules.

Only unused pharmaceuticals that have not been previously dispensed are eligible for credit return. Federal law prohibits the re-use of drugs that have already been dispensed to patients regardless of whether or not it has been opened or the safety seal has been broken.

Therefore, if the facility decides to accept unused drugs from a patient, proper disposal action should

be taken (e.g. incineration, hazardous waste disposal). Facilities should never accept pharmaceuticals from patients with the intention of returning them to the manufacturer for credit. Since there is no formal DoD regulation that addresses pharmaceutical turn-ins, acceptance of expired or unused drugs is usually at the Commander's discretion. (AFMLO/FOM-F, 1LT Robert Foote, DSN 343-2117, commercial 301-619-2117, robert.foote@ft-detrick.af.mil)

Available Excess - Ramstein AB, GE 86th MDSS/SGSL

Ramstein (FM5612) has over 2,000 lines of excess supplies and equipment that are available for redistribution until 8 April 2001. This materiel, contained on separate lists, can be reviewed by selecting the Procurement and Medical Excess Program options on the AFMLO web site at <https://afml.ft-detrick.af.mil>. You can save these Excel spreadsheets on your computer using the Windows File/Save As option. To claim items from these lists, contact one of the following individuals:

Medical Logistics Management Series

Article No. 2: Stock Fund

Since its inception, the Medical Dental Division (MDD) of the Air Force Working Capital Fund (AFWCF) has been a valuable means of providing expense inventories and procurement authority sufficient to satisfy requirements at Air Force medical facilities. The effectiveness of our stock fund has been enhanced by the fact that we are exempt from apportionment control. Basically, apportionment control means that a limit or cap on

spending is established at the beginning of the fiscal year for a specific fund. Exceeding that limit would constitute an anti-deficiency act violation. The keys to maintaining this advantageous flexibility are: 1) economic investment in inventory; and 2) obligations equal to sales, excluding war reserve materiel (WRM) obligations. Most importantly, effective operation and management of medical materiel involves providing timely and effective materiel support to the medical facility.

Two very important concepts in understanding the AFWCF are “working capital” and “revolving fund.” AFWCF assets include cash, orders outstanding, and inventory, and are defined as *working capital*. Another way to look at working capital is that it consists of funds that are invested in inventory and orders outstanding or maintained to ensure the availability of working cash. As customers buy from the AFWCF inventory, the funds they provide continue the process, which leads us to the concept of the revolving fund, which is the most distinctive feature of the AFWCF. When inventory is sold to customers, the stock fund receives money back in the form of credit reimbursements. These funds are then used to order replacement supplies. In this way the stock fund becomes a *revolving fund* because it continually sells inventory and reinvests the proceeds in replacement inventory for future sale.

One of the most common measures used to increase AFWCF effectiveness, is to maintain a consistent sales level that ensures an adequate balance between obligations (due-outs) and sales (issues). Simply put, sell what you buy and buy only what you can sell. You should compare sales to receipts on a monthly basis and validate your buying habits when you routinely buy more than

The AFMLL is a specialized newsletter published by the Air Force Medical Logistics Office. The AFMLL is published monthly to provide medical logistics information to Air Force medical activities worldwide. Our mission is to ensure all Air Force medical treatment facilities receive the highest level of medical logistics support. In that regard, we solicit your articles for inclusion in the AFMLL to relay information for use by other activities. For additional information concerning this publication, call (301) 619-4182/DSN 343-4182 or write to the AIR FORCE MEDICAL LOGISTICS OFFICE/FOA, ATTN: Donna Poffinberger, 1423 SULTAN DRIVE, SUITE 200, FORT DETRICK, MARYLAND 21702-5006. Articles may be faxed to (301) 619-2557 or DSN 343-2557, or e-mailed to: donna.poffinberger@ft-detrick.af.mil

The use of a name of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Air Force.

Matters requiring AFMLO action after normal duty hours may be referred to the AFMLO Staff Duty Officer. The Staff Duty Officer may be reached at DSN 343-2400 or (301) 619-2400 between the hours of 1630 and 0700 weekdays, and anytime on weekends and holidays.

you sell. Also, you should know what is generating excess inventory. Is it coming out of operating stock? WRM? In either case, you need to research the cause. Monitor destructions and know the reasons for them. You may need to revise stock control levels if materiel is expiring and being destroyed before it can be sold. Every loss in the operating inventory decreases funds available for the normal replenishment of materiel because these are lost sales. Fund availability is critical to the flexibility of the stock fund, which is why it is necessary to maintain equity between what we sell and what we buy. To maintain that critical balance, a surcharge is levied on all sales to compensate for inventory losses. The AFWCF operates to break even and the surcharge is used to make up differences in Net Operating Results. To be successful, communication with your customers is key.

As you probably know, procurement of WRM during peacetime is an investment in inventory. Since it is retained in inventory and not routinely sold to customers, it does not generate cash for the stock fund. The AFWCF receives cash for the acquisition and maintenance of WRM through the President's Budget.

In summary, the funds required to replace operating inventory are provided through reimbursement issues (sales). When materiel is purchased that is not sold, a loss results. A loss must be made up through the surcharge, therefore, decreasing the customer's buying power. Maintain close communication with your customers and work with them to ensure you thoroughly understand their requirements. Your assistance in maintaining credibility through proper management of the MDD of the AFWCF is sincerely solicited and appreciated. (AFMLO/FOC-A, MSgt Cliff Green, DSN 343-4187, commercial 301-619-4187, clifton.green@ft-detrick.af.mil)

Current Status of Decentralized Blanket Purchase Agreements (DBPAs)

Page 1 of **Attachment 3** is a list of pen and ink changes to the current consolidated Decentralized Blanket Purchase Agreement (DBPA)

Information List published in AFMILL 1-01, Attachment 3.

Change to Receiving Addresses for Medical Supplies

There has been a change to receiving addresses for overseas shipments going to a Containerization & Consolidation Point. Beginning 5 February 2001, the Defense Distribution Center (DDC), New Cumberland, PA, wants medical supplies to be shipped to the addresses shown below. Remember that follow-up for all DBPA shipments for both USAFE and PACAF is done through the DDC Customer Service Center located at DDC, New Cumberland, PA. All follow-up is done at one location since queries can be answered without direct interaction with the responsible depot. For inquiries or requests for status, contact the DDC Customer Service Center toll free at 877-352-2255 Option 2, DSN 977-6192, commercial 717-770-6192, FAX 717-770-4134, DSN 977-4134.

Schedules on the Internet

If you have access to the Internet and would like to know if an item is on a Federal Supply Schedule (FSS), select the Procurement option on the AFMLO web site at <https://afml.ft-detrick.af.mil>. Next, select Decentralized Blanket Purchase Agreements (DBPAs). Under FSS Schedules, select GSA FSS or VA FSS. You can also find out if a DBPA vendor has an active FSS by reviewing the quarterly DBPA Information Listing published in AFMLL 01-01, Atch 3.

If you select GSA FSS and then select “Schedules E-Library” you can search the E-Library by keyword, such as Contractor, Contract Number, Special Item Number (SIN) or Schedule Number. If the item you search for is not on a GSA FSS but is on a VA FSS, you will be referred to the VA web site www.va.gov/oa&mm/nac/fsss. If the item you search for is on the GSA schedule, select the schedule you want and you will get a list of SIN’s with the Contractors listed below each SIN. If you click on the contractor, you get the contract number and expiration date. Some contractors may also list their email and Internet address.

To view FSS awarded by VANAC, select the NAC FSS option (on the Procurement Team Page). You will see a table (see below) of all schedules awarded by the VANAC. Select a schedule and you will see an alphabetical list of all contractors awarded a FSS contract. Scroll further down the page to get the contractor's complete address, phone number, FSS contract number and expiration date.

- 65 I B Pharmaceuticals and Drugs
- 65 I C Antiseptic Skin Cleansers, Detergents, and Dispensers
- 65 II A Medical Equipment and Supplies
- 65 II C Dental Equipment and Supplies
- 65 II F Patient Mobility Devices (including Wheelchairs, Scooters, Walkers, etc.)
- 65 V A X-Ray Equipment and Supplies (including Medical and Dental X-Ray Film)
- 65 VII InVitro Diagnostics, Reagents, Test Kits and Test Sets
- 65 NIIS New Item Introductory Schedule
- 66 III Clinical Analyzers, Laboratory, Cost-Per-Test

If you do not have access to the Internet, contact the GSA FSS Information Center at 703-305-6477 to get a list of current contractors awarded a FSS by GSA. For a hard copy of VANAC FSSs, contact their Centralized Mailing List Service at 817-334-5215. For all other assistance with VA FSS contracts, call the VANAC at 708-786-5180. (AFMLO/FOM-P), Ms. Charlotte Christian, DSN 343-4164, commercial 301-619-4164, charlotte.christian@ft-detrick.af.mil)

Information

Medical Logistics in Action

Headquarters, Air Force Medical Support Agency (HQ AFMSA) and the Air Force Medical Logistics Office (AFMLO) extend sincere congratulations to the personnel named below for their outstanding achievements.

10th MDG Air Force Academy Peterson AFB, CO

Jessy Acosta was promoted to **Airman**. **Jennifer Flye** was promoted to **Senior Airman**, and **Holynn Montalvo** was promoted to **Staff Sergeant**. **TSgt Dennis Casey, SSgt Rhonda Gibbs, SrA Hillary Gabrick, SrA Christopher Ferhm, SSgt Staci Bengogullari, Amn Katie Martinez**, and **A1C Marlene Lewis** were awarded the 10th MDG STAR Performer Team Award for Peterson AFB. **Robert Espinosa** was selected as the 10th MDSS Civilian of the Quarter, Oct-Dec 00. **SSgt John Root** and **SSgt Becki Shaffor** were awarded the 10th MDG Customer Service Award. **SSgt John Root, SSgt Jason Danieli, A1C Sarah Tills, Amn Heather Brown, Amn Jessy Acosta, A1C Steven Jann, and Capt Joseph Lynch** were awarded the 10th MDG STAR Performer Team Award for the Air Force Academy.

15th MDSS Hickam AFB, HI

Tiffany Hunter-Ellis was promoted to **Airman**. **SSgt Sandra Sondergeld** and **TSgt Mark Beavers** were awarded the Air Force Commendation Medal, 2nd OLC, for duties

performed while assigned to 51st Contingency Hospital, Kimhae AB, KO. **SSgt Patty Kaszuba** was awarded the Air Force Achievement Medal, 1st OLC, for duties performed while assigned to the 1st MDG, Langley AFB, VA. **SSgt Karla Holmes** was awarded the Air Force Commendation Medal, 1st OLC, for duties performed while assigned to the 366th MDG, Mountain Home AFB, ID. **SrA Michael Miller** was awarded the Armed Forces Expeditionary Medal for outstanding service in support of "Joint Task Force Southwest Asia, Operation Southern Watch," Sep–Nov 2000. **The 15th MDG** was awarded the "Lt Gen Charles Roadman Mirror Force" Award for 2000 for integration of Air Force Reserve, Guard, and Active Duty Training.

Capt Dirk Sandstrom was selected Company Grade Officer of the Quarter, Jul-Sep 00, for the 15th MDSS and 15th ABW. **Capt Sandstrom** was also selected Company Grade Officer of the Year for the 15th MDSS. **SrA Jason Devecka** was selected Airman of the Quarter, Oct-Dec 00. **SrA Erica Bell** was selected Medical Logistics Airman of the Year, 2000, for PACAF. **MSgt James Law, III** was selected Senior Noncommissioned Officer of the Quarter, Oct-Dec 00. **SSgt Sandra Sondergeld** was selected Noncommissioned Officer of the Quarter, Oct-Dec 00, and **TSgt John Sarver** was selected Noncommissioned Officer of the Year. **Mr. Chuck Godish** was selected Civilian of the Year, Category 2, and **Mr. Johnathan Smith** was selected Civilian of the Year, Category 3.

55th MDSS Offutt AFB, NE

SrA Travis Hill was selected Outstanding Medical Logistics Airman of the Year. The **55th Medical Logistics Flight** was selected the Outstanding Medical Logistics Activity of the Year, Category II, for the 55th MDSS.

60th MDSS Travis AFB, CA

Laura M. Rose, Stephanie M. Carrin and **Naydja A. Brunner** were promoted to Airman.

TSgt Conrad J. O'Rourke was awarded the Air Force Achievement Medal for Outstanding Achievement as the Year 2000 Medical Equipment Action Officer, while assigned to the 52nd MDG, 52nd Fighter Wing, Spangdahlem Air Base, GE. **TSgt Quentin D. Chavis** was awarded the Air Force Achievement Medal for Meritorious Service as Noncommissioned Officer in Charge, Medical Logistics Flight, while assigned to the 8th MDSS, 8th MDG, 8th Fighter Wing, Kunsan AB, KO. **SSgt Mervin L. Tuttle** was selected as the Medical Logistics Supervisor of the Quarter, Oct-Dec 00. **Ms. Debra A. Inocencio** was selected Medical Logistics Technician of the Quarter, Oct-Dec 00.

314th MDSS Little Rock AFB, AR

Walter A. Kelly and **Duane L. Paquette** were promoted to Technical Sergeant. **Roy J. Darbro** and **Scott T. Gardner** were promoted to Staff Sergeant. **Captain Blake D. Brewer** was selected the 314th MDSS Company Grade Officer of the Year, 2000. **MSgt Shirley Mattice-Allen** was selected the 314th MDSS Senior Noncommissioned Officer of the Year, 2000. **TSgt Duane D. Paquette** was selected the 314th MDSS and the 314th MDG Noncommissioned Officer of the Quarter, Jul-Sep 00. **SrA Louise J. Peterson** was selected the 314th MDSS Airman of the Quarter, Oct-Dec 00 and Support Squadron Airman of the Year, 2000. **SSgt Judy A. Crider** received the Community College of the Air Force Degree for Medical Logistics. **TSgt Walter A. Kelly** was awarded the Air Force Achievement Medal, 1st OLC, for duty performance while assigned to the 17th MDSS, Goodfellow AFB, TX. **SSgt Scott T. Gardner** was awarded the Air Force Commendation Medal for meritorious service while assigned to the 22nd MDSS, McConnell AFB, KS. **SSgt Gardner** was also awarded the Air Force Achievement Medal, 1st OLC, for services performed at 22nd Air Refueling Wing, First Term Airmen Center, McConnell AFB, KS.

**341st MSS
Malmstrom AFB, MT**

Miranda Sims was promoted to Senior Airman.

**Air Force Medical Support Agency
Brooks AFB, TX**

Quarterly award winners for the 4th quarter, Oct-Dec, are: Company Grade Officer, **Capt Richard E. Cutts**, HFO-Atlanta; Senior Noncommissioned Officer, **MSgt Julie M. Lyn**, Brooks AFB, TX; Noncommissioned Officer, **TSgt David Harmon**, AFMLO, Ft. Detrick, MD; Airman, **SRA Kris A. Williams**, FOC-I, Fort Worth, TX; Civilian GS 1-7, **Mrs. Jodi Cardoza**, AFMLO, Ft. Detrick, MD; and Civilian GS 9 and Above, **Mr. Richard Prout**, Ft. Detrick, MD.

CLINICAL ENGINEERING

Biomedical Equipment Maintenance

Y2K, What Do I Do Now?

Many of you have called to find out what the policy is on Y2K stickers and other Y2K related information. At this time, all Y2K labels and the Tech Notes relating to Y2K compliance status can be removed. Information on modifications made to bring a piece of equipment into compliance must remain in the Tech Notes, as would any other modification. Additionally, all Y2K information currently in the Equipment Data File (EDF) must remain for the life of the equipment. All Risk Control Plans containing Year 2000 documentation, contingency plans, compliance reporting, and other related information, must be archived until 31 March 2005, either electronically or in hard copy. The AFMLO POC for this is TSgt Stephen M. Walker. (AFMLO/FOM-E, TSgt Stephen Walker, DSN 343-4039, commercial 301-619-4039, stephen.walker@ft-detrick.af.mil)

Facilities Management

Take Advantage of Your American Society of Healthcare Engineering (ASHE) Membership

The American Society of Healthcare Engineering (ASHE) is the premier forum for healthcare facilities management and the only national society dedicated to the professional development of

healthcare facility managers. A membership with ASHE provides a distinct advantage to healthcare facility managers by enabling them to stay abreast of current news and regulatory updates.

Recognizing this fact, each year the Air Force Medical Logistics Office centrally funds the memberships for every Air Force facility manager, MAJCOM representative, and Regional Health Facilities Office. The membership is assigned by location rather than by individual name, and each location has its own membership number. If you do not know your membership ID number, contact any one of the AFMLO/FOM-F team members. If you plan to attend an ASHE-sponsored educational event, ensure you use your ID number to obtain the membership rate.

You will also need your membership ID number to access the "Members Only" portion of the ASHE website at www.ashe.org. To access the Members Only area, input "*airforce*" in the user name field, and your 7-digit ID number. The Members Only area utilizes system cookies so that a login is only required once every 30 days. I highly encourage each of you to examine the wealth of information available and take full advantage of your membership privileges.

In the Members Only area, you will find the "Inside ASHE" newsletter, the Technical Document Series, current news and alerts, regulatory updates, and guidance regarding EPA, JCAHO, NFPA, OSHA, and more. A search feature enables you to use keywords to search ASHE's extensive resource library. In addition, you should also take advantage of the bulletin board and listserv features, which disseminate important information on healthcare facilities management topics. If you have any questions regarding your ASHE membership benefits, please call or email us and we will be glad to help you. (AFMLO/FOM-F, Maj Gil Weston, DSN, 343-4972, commercial 301-619-4972, gil.weston@ft-detrick.af.mil)

Waterborne Pathogens and EC.1.7 Utilities Management

The 2001 JCAHO Environment of Care Utilities Management standards now require healthcare facilities to have a utility system management program to reduce the potential for hospital-acquired illness. Another intent statement requires the plan to provide processes for managing pathogenic biological agents in cooling towers, domestic hot water, and other aerosolizing water systems.

As part of your management plans, the Facility Manager should work closely with Infection Control to identify the high risk patient population (those most susceptible of contacting legionellosis). Next, assess the amplification factors inherent in your system. Legionella thrives in warm water (77-108°F). Stagnant water also enhances its colonization. Consider any other humidifying systems that produce an aerosol. The biofilm on cooling towers serves as nutrients for the Legionella bacteria. Once the risk is assessed, determine what aerosolizing systems are present in the high-risk patient environments and limit their access to these systems.

Finally, the management plan must address the maintenance and operation of the water systems. These plans should include a process to document the maintenance and log the findings. Take caution if a vendor urges you to proactively culture, or install a new water treatment system based on "new Joint Commission standards." Work with your Infection Control Officer to identify risks and measures appropriate for your organization.

An excellent source of information concerning waterborne pathogens is <http://www.ashe.org/media/water.html>. (AFMLO/FOM-F, Capt David Schlevensky, DSN 343-4081, commercial 301-619-4081, david.schlevensky@ft-detrick.af.mil)

Multiple Award Contracts For Heating, Ventilation and Air Conditioning (HVAC) Evaluation And Repairs

The Veterans Affairs Special Services (VASS) Contracting Office at AFMLO recently awarded Indefinite Delivery/Indefinite Quantity, multiple award contracts with The Trane Company and York International Corporation for Heating, Ventilation and Air Conditioning (HVAC) Evaluation and Repairs. These contracts allow task orders to be written against the primary contracts by government contracting officials and are available for use at any DoD military medical treatment facility (MTF). Contract pricing is based on fixed CONUS and OCONUS labor rates, overtime rates, holiday rates, and materiel pricing. Through these contracts, we are realizing a 25-35% cost reduction when compared to existing HVAC toolbox contracts. Specific information on the contracts can be obtained at <https://afml.ft-detrick.af.mil/afmlo/va/cust.htm>. Select the VASS Facility Maintenance and Repair Contracts link, or contact the Contracting Officer, Monica J. Pileggi at DSN 343-4070, monica.pileggi@ft-detrick.af.mil. All requests to use the contract must be coordinated with Capt Richard Cutts (HFO), 404-562-4243. (AFMLO/FOM-P, Maj Troy Molnar, DSN 343-4083, commercial 301-619-4083, troy.molnar@ft-detrick.af.mil)

Quality Assurance

Food and Drug Administration (FDA) Recalls/Alert Notices

Attachment 2, paragraph 1, provides information on FDA medical equipment recalls and alerts. Personnel from clinical engineering, biomedical equipment maintenance, quality assurance, and safety should follow the guidance provided to ensure the effective maintenance and management

of medical equipment. (AFMLO/FOM-E, Capt P.J. Toth, DSN 343-7445, commercial 301-619-7445, paul.toth@ft-detrick.af.mil)

WILLIAM H. HILL
Deputy Chief, Air Force Medical Logistics Office

FDA MEDICAL EQUIPMENT RECALLS AND ALERTS. The following recalls are reported in Accordance with AFMILL 2-95, page CE-4, and should be treated as directed modifications in accordance with that AFMILL and AFI 41-201, Chapter 2, Section D. If you possess any of these items and have not received recall notification, you should contact the manufacturer for recall instructions. Suspension is only required for Class I items.

2. DRUG/SUPPLY PRODUCT RECALLS AND MEDICAL INFORMATION. The Food and Drug Administration (FDA) advises that the drug products listed below were recalled by the manufacturers or distributors concerned. The FDA has classified these recalls as follows:

CLASS I: A situation in which there is a reasonable probability that the use of, or exposure to, a violative product will cause serious, adverse health consequences or death.

CLASS II: A situation in which the use of, or exposure to, a violative product may cause temporary or medically reversible adverse health consequences or where the probability of serious adverse health consequences is remote.

CLASS III: A situation in which the use of, or exposure to, a violative product is not likely to cause adverse health consequences.

Most of these items are nonstandard, and the possibility exists that medical activities may have purchased them locally. There is also a possibility that some of these items have NSNs assigned and may have been reported in earlier Q.A. messages. Activities having quantities of these items on hand will immediately suspend the materiel from issue and use. CONUS activities will contact the nearest office of the respective manufacturer or distributor for disposition instructions. OVERSEAS activities will report quantities suspended to **AFMLO/FOM-P** no later **09 MAR 01** for disposition instructions. They should include nomenclature; lot number; manufacturer; quantity suspended; strength size; requisition; and DSCP purchase order number, contract number, and stock record account number (SRAN).
