Air Force Points of Contact

Subject	POC	Phone
Air Force Policy & Procedures	Major Kyle Bauman	DSN 240-3963
MEDLOG Set up and Procedures	HQ SSG/MIM MSgt Paul Filhiol TSgt James Thompson TSgt Larry Watkins	DSN 596-4213 DSN 596-2588 DSN 596-3663
Air Force ECAT Implementation, Proliferation & Sustainment	Ms. Charlotte Christian Capt Jason Ortiz	DSN 343-4164 DSN 343-4168

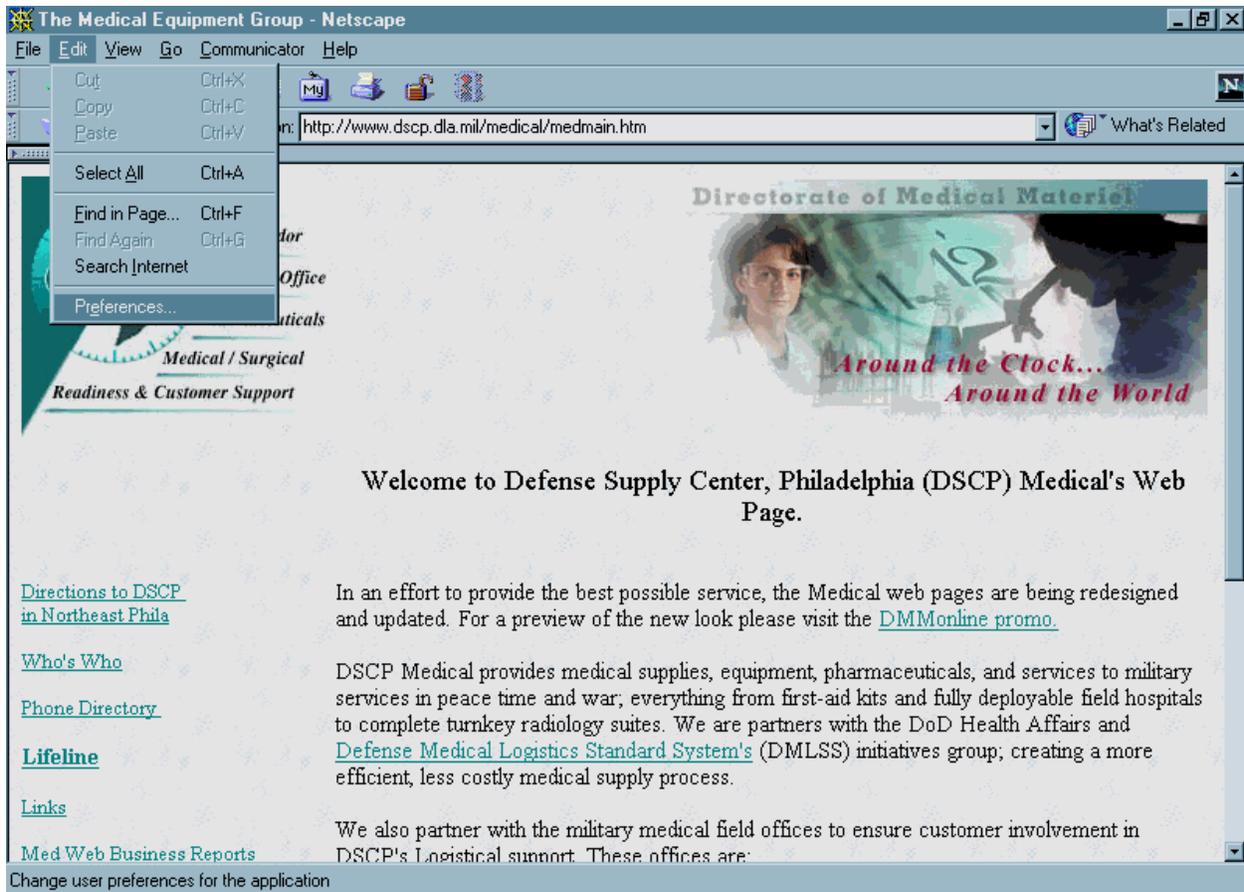

The purpose of this guide is to provide guidance to MEDLOG users who wish to use ECAT to perform product searches. Only those accounts that begin with "DMLSS_" are able to see Supplier ID, UPN (UPC), Catalog ID, or Item ID. This information is required in order to set up an ECAT record (MEDLOG transaction 'ECR') in MEDLOG.

Instructions to initially set up MEDLOG to interface with ECAT are found at: <http://www.ssg.gunter.af.mil/medsys/medlog/release/ecat/ecatinst.htm>

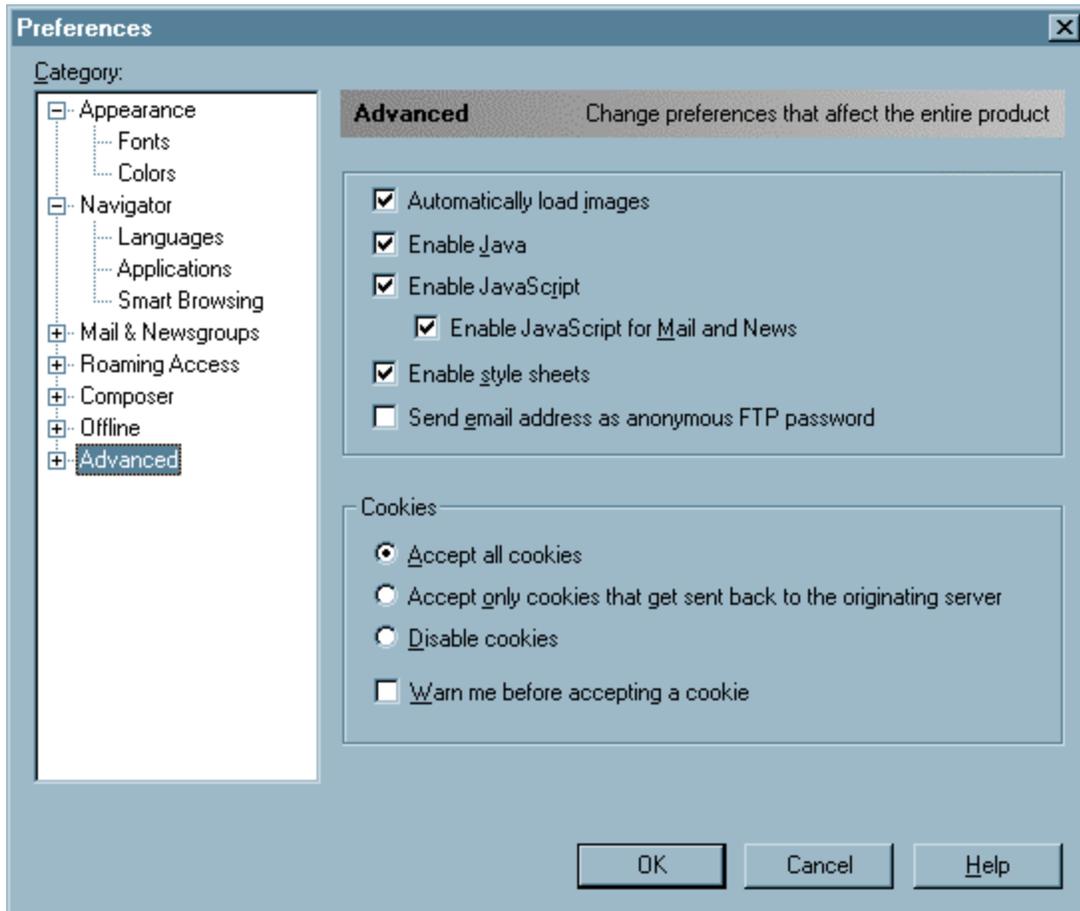

ECAT can be accessed using Netscape Navigator 4.x or Microsoft Internet Explorer 4.x or 5.x. (It is highly recommended that Netscape Navigator 4.7 or Microsoft IE 5.0 be used. Free upgrades are available from the Netscape and Microsoft web sites.) The cache option of your browser must be set to verify the latest version of documents **every time**. If this option is set to **once per session** ECAT will not function properly. Also, your browser must be set to **accept cookies**.

Set the required options using Netscape 4.x.

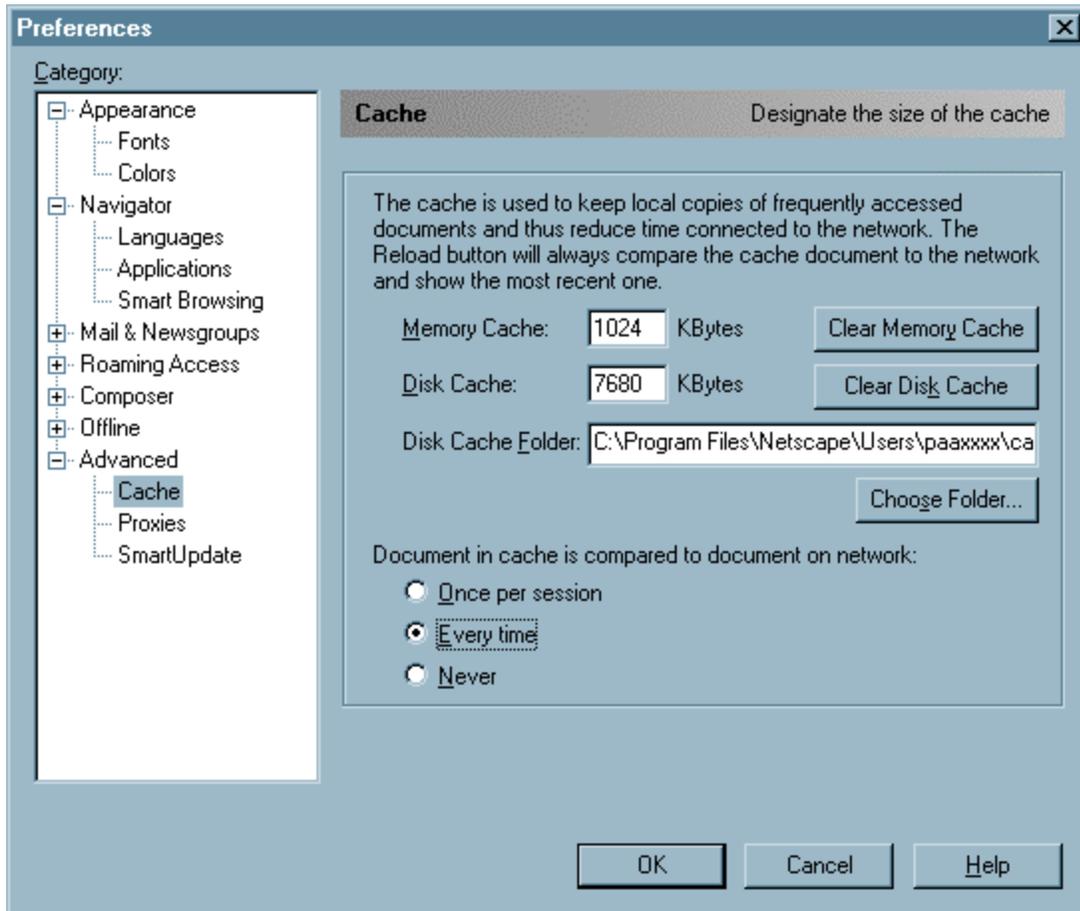

1. Click on the **Edit-Preferences** menu

2. Click on the **Advanced** category. Click on the **Accept all cookies** radio button. Click on the **OK** button.

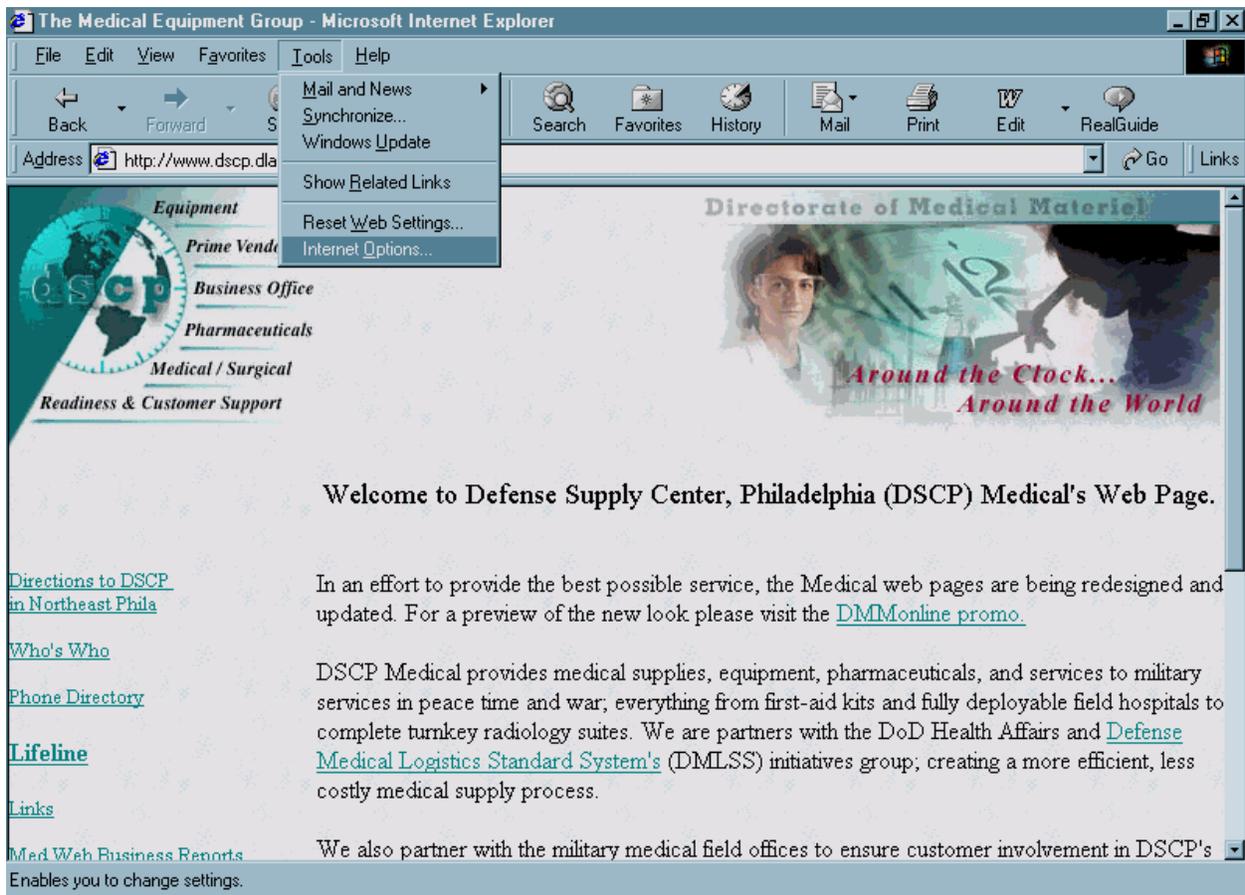

3. Repeat step 1. Click on the "+" symbol next to the **Advanced** category. Click on the **Cache** sub-folder. Click on the **Every Time** radio button. Click on the **OK** button.

Set the required options using Internet Explorer 5.x.

1. Click on the **Tools-Internet Options** menu.

The screenshot shows the Microsoft Internet Explorer 5.x browser window. The title bar reads "The Medical Equipment Group - Microsoft Internet Explorer". The menu bar includes File, Edit, View, Favorites, Tools, and Help. The Tools menu is open, showing options: Mail and News, Synchronize..., Windows Update, Show Related Links, Reset Web Settings..., and Internet Options... (highlighted). The address bar shows "http://www.dscp.dla". The main content area displays the website for the Directorate of Medical Material, with a navigation menu on the left listing categories like Equipment, Prime Vendor, Business Office, Pharmaceuticals, and Medical / Surgical. The main text includes a welcome message and information about website updates and services.

Our GOAL is to serve our customer's needs in a changing environment.

[Return to the Medical Directorate](#)

The following options are available on this page:

Military Login	Provides access to login screen for authorized DoD customers.
Commercial Login	Provides access to login screen for authorized non-DoD.
General Information	Provides information about the LIDS, Optical, and Dental initiative.
Quick Start Guide	Provides a guide for web-based ordering.
Demonstration	Provides access to an on-line interactive
Air Force User Guide	Provides access to the Air Force ECAT Users Guide.
Prime Contractors	Provides access to a list of participating contractors.

Access Request Form

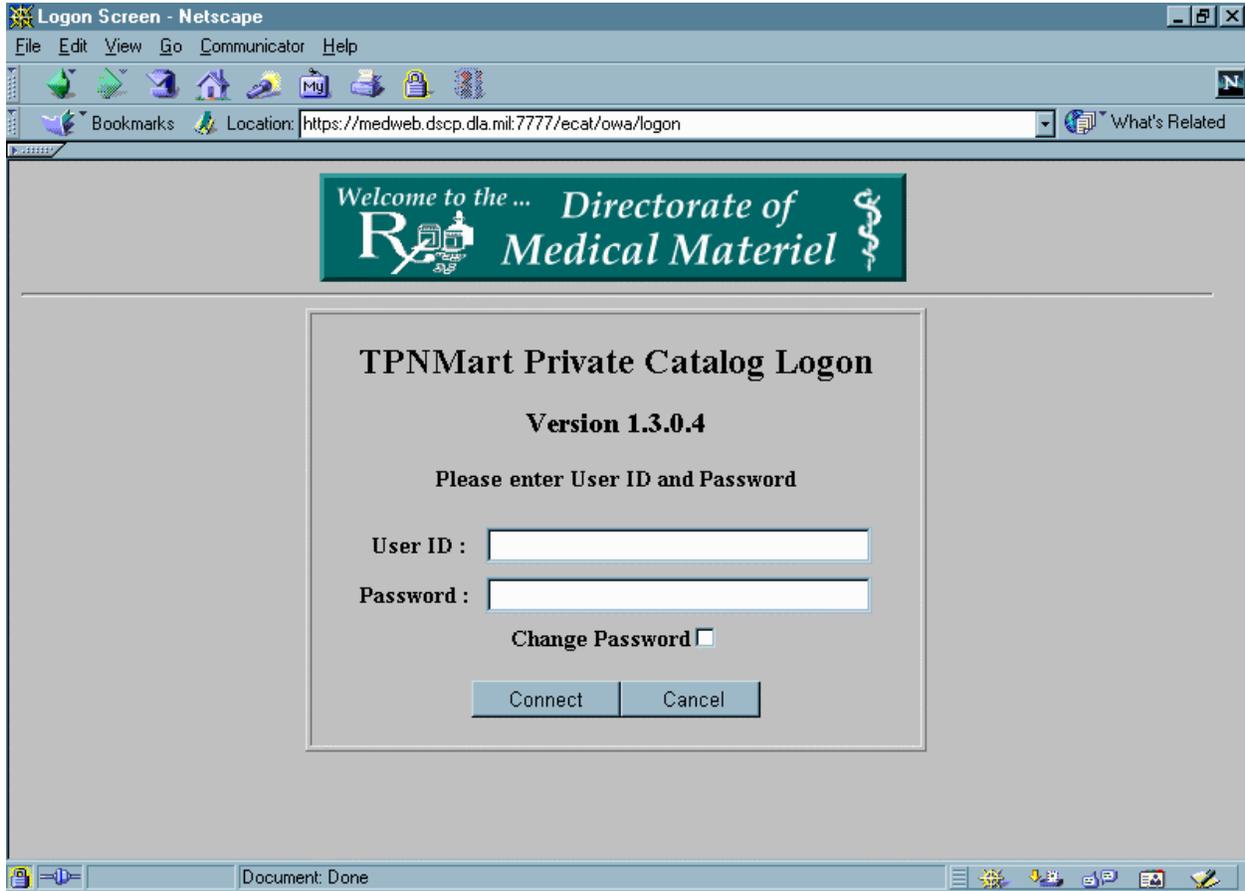

Provides access to an on-line request form for new customers.

Return to the Medical Directorate

Provides a link to the DSCP Medical Directorate home page.

Login to ECAT

Click on the **Military Login** button. The ECAT Login screen is displayed. Enter your User ID and Password, and click on the **Connect** button. The **Customer Order** menu is displayed.

The screenshot shows a Netscape browser window titled "Logon Screen - Netscape". The address bar displays the URL "https://medweb.dscp.dla.mil:7777/ecat/owa/logon". The main content area features a banner for the "Directorate of Medical Materiel" with a logo. Below the banner is a login form titled "TPNMart Private Catalog Logon" with the version "1.3.0.4". The form prompts the user to enter their "User ID" and "Password". There is a "Change Password" checkbox and two buttons: "Connect" and "Cancel".

Searching for a Product

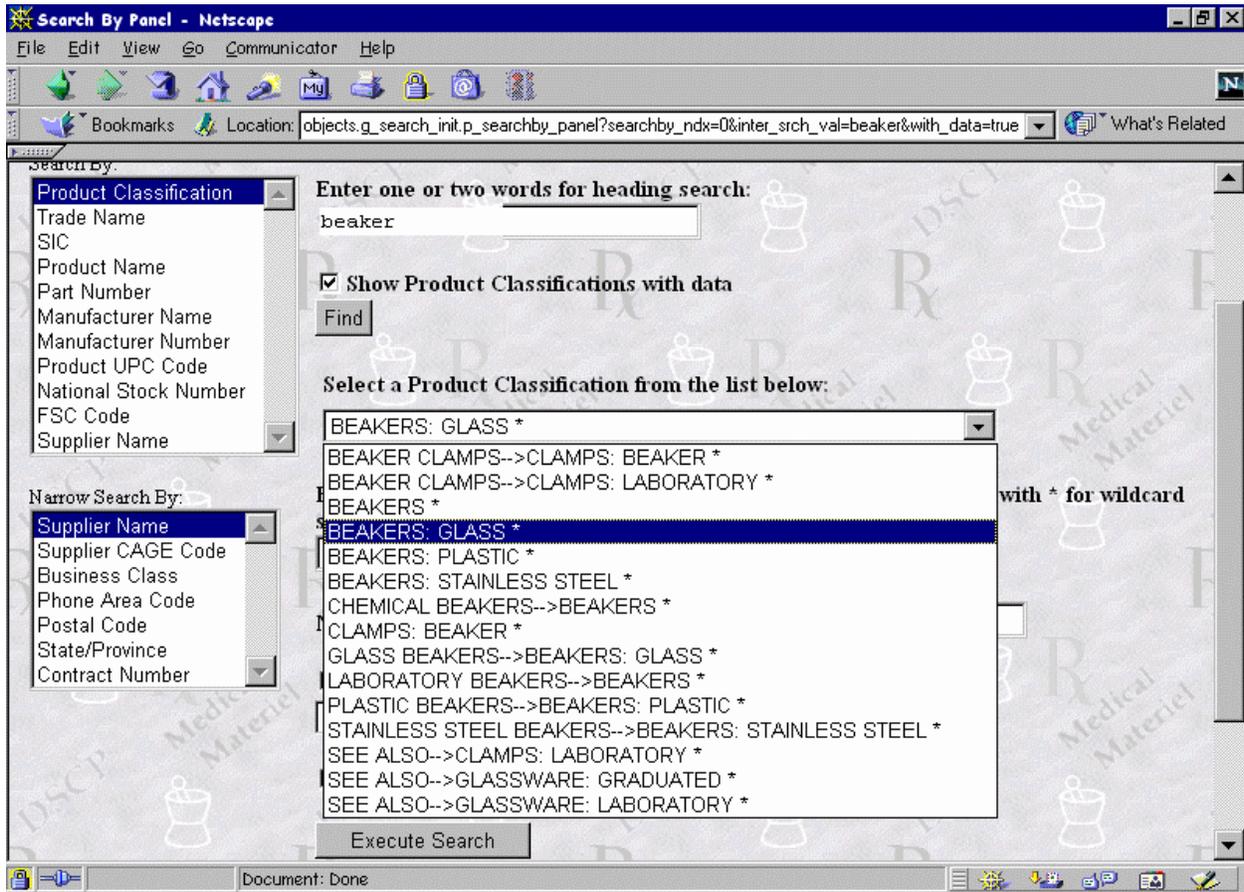

The following search options are available:

Search by Product Classification

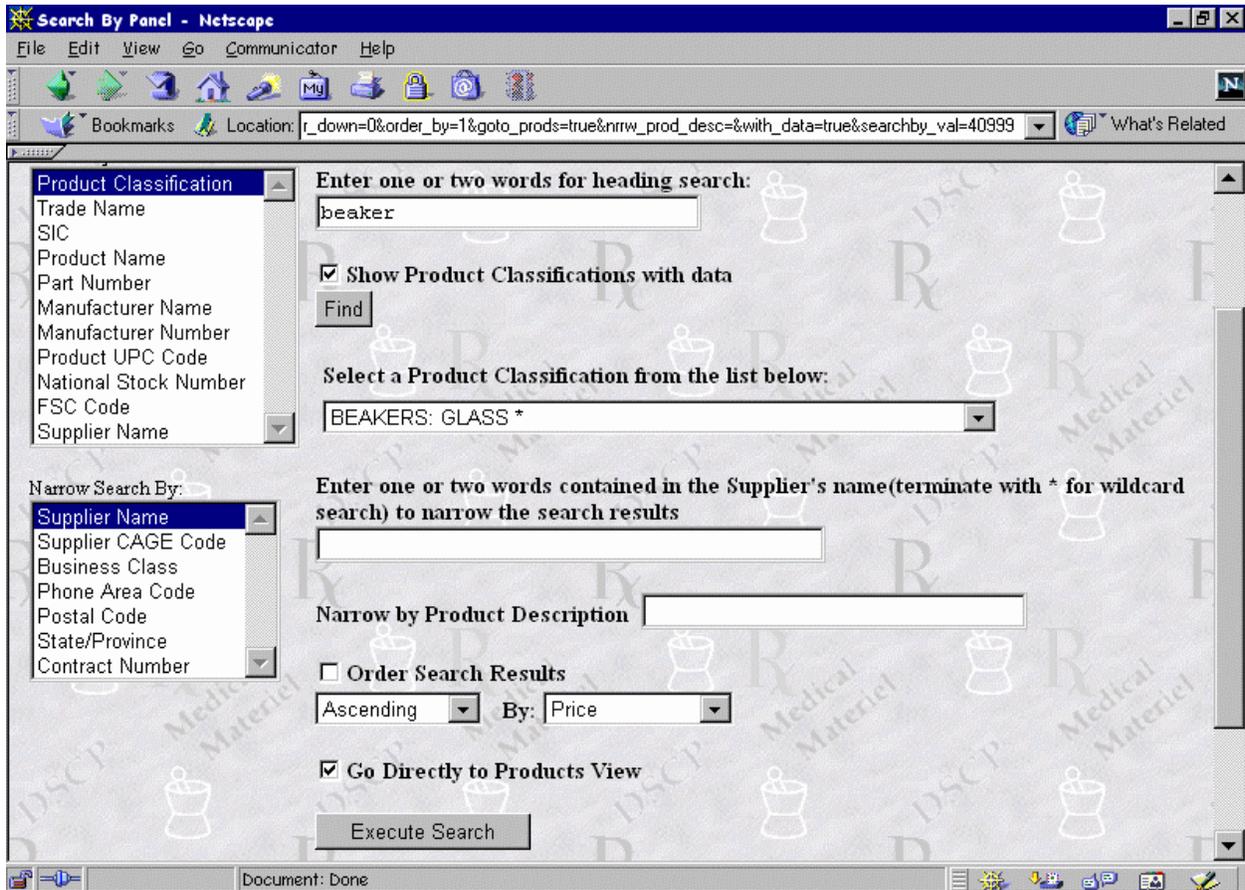

To search by product classification, click the **Product Classification** selection in the **Search by** list and type one or two words from the product classification of the desired product(s) in the text box that appears. Click the **Find** button to list all product classifications matching the word(s) entered in the text box. To show only product classifications for existing products, click the check box labeled **Show Product Classifications with Data**.

Select the product classification of the desired product(s) from the pull down menu that appears.

Click on the **Execute Search** button to execute the search. The search can be qualified by selecting the search criteria in the **Narrow Search By** list box, and entering the search values. The search result can be displayed in a specified order by clicking on the **Order Search Results** checkbox, selecting **Ascending** or **Descending** in the **Results Order** list box, and selecting a field in the **Results Order By** list box.

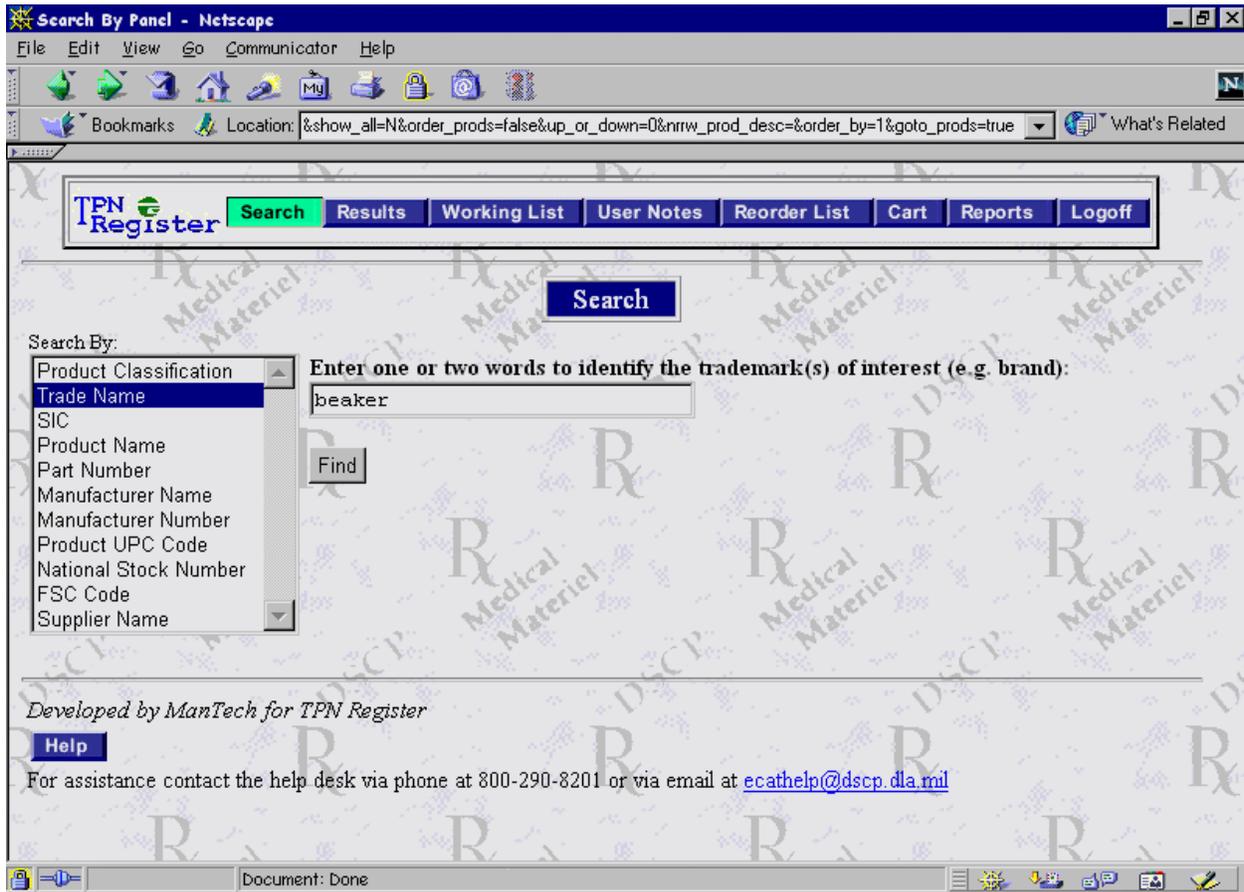

The **Results** screen displays the results of the entered search criteria.
